

the minutes, or by written appearance, that Findings of Fact and Conclusions of Law be waived;

It is, by the Court, CONSIDERED, ORDERED, ADJUDGED, and DECREED as follows:

I

That the Santa Clara River is a stream of water rising in the Northern portion of Washington County in what is commonly known as the Pine Valley Mountains and flowing generally in a south-westerly and thence in a southeasterly direction to a point a short distance south from the City of St. George in Washington County, where it empties into the Virgin River, a tributary to the Colorado River; that said river is a fluctuating stream, and at times during the flood or high water period attains a flow in excess of 1,000 cubic feet per second; and that all of the waters of said Santa Clara River, together with all of its tributaries, are within the jurisdiction of this court for distribution for beneficial uses under and pursuant to the laws of the State of Utah and the terms of this decree.

II

The said water of said Santa Clara River and its tributaries so drawn within the jurisdiction of this court for distribution under this decree is hereby decreed, allowed, and designated for the various beneficial uses herein specified, without waste, to the plaintiffs and defendants, respectively, and their successors in title and interest, in the amounts, for the purposes, under the conditions, and in accordance with the priorities established and prescribed by the SCHEDULE OF RIGHTS hereinafter set forth.

The rights herein decreed and recognized are designated and classified as "power rights", "irrigation rights," and "domestic rights", respectively, and shall have the following characteristics; "Power Rights" are rights to divert and use water for the generation of electricity, and such rights of diversion and use are continuous throughout the year, without limit as to time or season, but are limited as herein set forth as to quantity of flow and as to priority;
